EduBlue

MADE IN HOLLAND

- Economical binocular models
- Dual and Triple magnification objectives
- Cordless operation
- Digital models available
- LED illuminators
- Ergonomical carrying grip
- 5 years warranty

Rack & pinion stand
Model ED.1402-S

EduBlue digital

Pillar stand

The EduBlue stereo microscopes are specifically designed for educational applications and come with both dual and triple magnifications

Triple magnification

FEATURES

Model	Digital head	1x/3x objective	2x/4x objective	1x/2x/3x objective	1x/2x/4x objective	Pillar stand	Rack & Pinion stand

StereoBlue

MADE IN HOLLAND

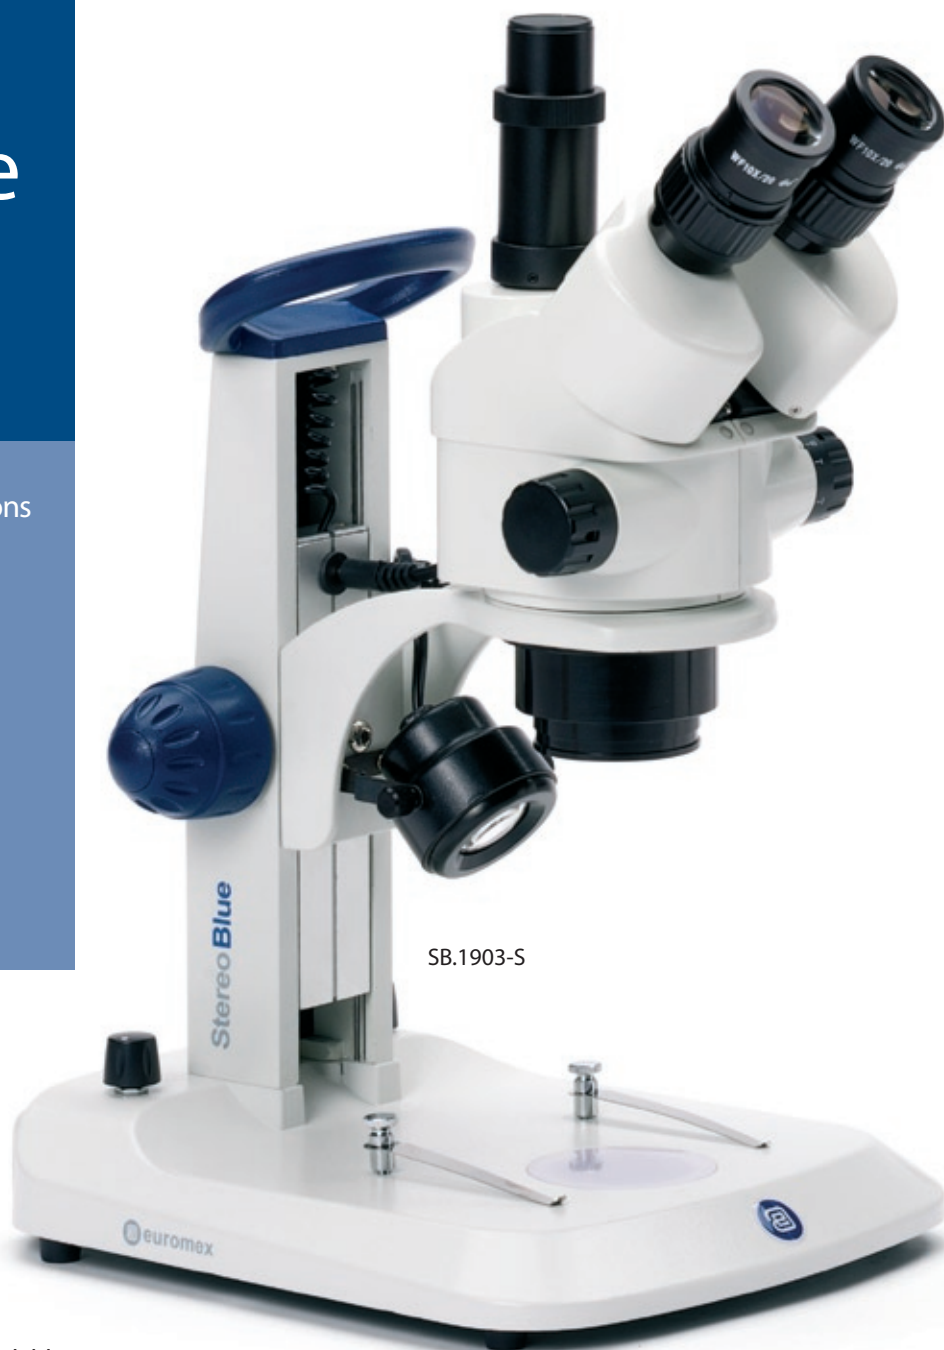

- Zoom Stereo 0.7x to 4.5x versions
- Dual 1x/3x or 2x/4x magnification versions
- Ergonomically designed
- Available in rack & pinion and pillar stands
- 3 W LED illuminators
- Ergonomical carrying grip
- 5 years warranty

Pillar stand model
SB.1402-P

The StereoBlue stereo microscopes are available in fixed dual magnification and zoom 0.7x to 4.5x magnification versions. For education, the amateur and suitable for many routine applications for the industry

SB.1903-S

EcoBlue

MADE IN HOLLAND

- Economical microscopes for education
- Monocular and binocular models
- Digital and polarisation models available
- LED illumination
- Ergonomical carrying grip
- 5 years warranty

Model EC.1001

Mechanical stage

Polarisation

Digital

The EcoBlue series offer quality biological microscopes at affordable prices. These modern microscopes were specifically developed for education with a special attention for ergonomics and with an outstanding price/quality ratio

FEATURES

Model	Monocular	Binocular	Digital	S100x	S60x	LED	Polarisation	Mechanical stage	Cordless
EC.1001	•					•			
EC.1101	•			•		•			
EC.1601	•				•	•			
EC.1151	•			•		•		•	•

EC.2001-POL (1)	•						•		
EC.2101-POL (1)	•			•			•		
EC.2601-POL (1)	•				•		•		

(1) Polarisation models are standard available as halogen version

BioBlue

MADE IN HOLLAND

- Microscopes for education
- Monocular, binocular & trinocular models
- Semi-Plan objectives and a reversed quadruple nosepiece
- Integrated mechanical stage
- Digital and polarisation models available
- NeoLED illumination
- Cordless operation
- 10 years warranty

The beautiful stylish design of the BioBlue series stands out among all other microscopes of this kind. It has been especially designed for biology classes of educational institutes and small laboratories and offer a full range of types

Binocular model BB.4260

BioBlue.Lab

MADE IN HOLLAND

- Microscopes for laboratories
- Binocular and Trinocular models
- Reversed quadruple nosepiece
- Plan and Plan Phase objectives
- Infinity Optical System
- Integrated mechanical stage
- NeoLED illumination
- Ergonomical carrying grip
- 10 years warranty

BioBlue.Lab Trino

The BlueLine flagship BioBlue.Lab is an instrument that precisely matches the high expectations of microscopy users. All models have the NeoLED illumination system integrated. The BioBlue.Lab series are available in binocular and trinocular versions. These ergonomic easy-to-use microscopes have specifically been designed for laboratory and university applications. The 140x140 mm mechanical stage has an integrated XY-stage with 75x50 mm travel

BioBlue.Lab

BioBlue

The larger BioBlue.Lab microscope models offer great functionality and are equipped with WF10x/20mm eyepieces with larger field of view and IOS plan 4x/ 10x/ S40x/ S100x infinity corrected objectives

BioBlue.Lab Bino

Phase contrast set

The BioBlue.Lab microscopes can also be supplied with IOS plan phase contrast objectives 10x / 20x / S40x / S100x, which are infinity corrected. These enhanced instruments are suitable for a wide variety of routine applications in laboratories and field microscopy

FEATURES

Model	Bino	Trino	IOS Plan 4x/10x/S40x/ S100x	IOS Plan Phase 10x/20x/S40x/ S100x	Mechanical stage	NeoLED

by euromex

Euromex Microscopen b.v.

is a leading manufacturer of microscopes and other optical instruments. Founded in 1966, Euromex has become a world-class supplier of biological and stereo microscopes

The corporate office is based in Arnhem, The Netherlands. A facility with a 2.000 m² conditioned logistics warehouse, an opto-mechanical workshop, an R&D department and a high-level quality control department

Around the world, Euromex operates in more than 80 countries through distributors, resellers and agents. A wide variety of customers such as schools and educational institutes, clinical and research laboratories and a broad range of industrial customers are using Euromex microscopes
