

Security labels

VOID Pattern Polyester

IDENTCO's line of tamper evident polyester materials are designed to leave different patterns when removed.

When used in combination with the recommended IDENTCO thermal transfer ribbons, it will meet the most demanding durable labeling requirements.

- Thermal transfer printing of variable information
- Tamper evident
- Indoor and outdoor applications
- Excellent smudge, solvent, and abrasion resistance

TT712 - Matte Silver "VOID"

TT710 - Gloss White "VOID"

TT711 - Gloss White "Triangle VOID"

TT713 - Matte Silver "Checkerboard"

Destructible Vinyl

IDENTCO's destructible vinyl material is designed to destruct in applications where the label is attempted to be removed.

When used in combination with the recommended IDENTCO thermal transfer ribbons, it will meet the most demanding durable labeling requirements.

- Thermal transfer printing of variable information
- Tamper evident
- Indoor only applications
- Conformable
- Excellent smudge, solvent, and abrasion resistance

TT733 - Semi-Gloss White Destructible Vinyl Film
